# Price List of Strictly First Class Stock

**I**F OUR PRICES on any article appear higher than those of some of our competitors, be assured that they are only enough higher to compensate for the superiority and quality that we expect to give our purchasers.

**Do not vary from our prices.** In this list we aim to include only those varieties that we can recommend to our customers as **first class in every respect.** Our experience goes to prove that in pricing only this class of varieties, more satisfactory results in the long run are given our patrons than if we embraced in the list many so-called "novelties" which in the great majority of cases fail frequently to sustain the recommendations of the nurserymen, and hence cause great disappointment and loss to the customer. For this reason, please confine yourself to the list. Sell other things only when you cannot sell the above, and with the understanding that you cannot vouch for their value without special advice from us.

Our stock will be first class in every particular, carefully selected, extra good, and not overgrown material, and we guarantee its delivery in good order, by mail or express.

These prices are as low as we can afford to sell except to the home trade which drive in after their stock, saving packing and boxing. Six at dozen, 50 at hundred and 250 at thousand rates.
